# About Us

The Sustainable Living Association (SLA) is dedicated to educating people and communities to make healthy sustainable choices. Since 2000, SLA has moved our community toward a more sustainable future in tangible ways. Through our outreach, programs, events, and strategic community partnerships; SLA has become known as the cutting-edge resource of the sustainability movement in Northern Colorado.

## Our Impact

- Educated over 150,000 people about sustainable living practices through our flagship community event, the Sustainable Living Fair.
- Set the standard for zero-waste community events in Fort Collins, leading to city event-waste regulations. This effort was replicated at a national level by core SLA volunteers who founded Zero Hero Events.
- Served as the fiscal agent for the NoCo Rebuild Project after the High Park Fire; providing free workshops on how to re-build sustainably.
- Developed Earth Day Fort Collins 13 years ago to engage citizens in environmental protection and preservation.
- Initiated an annual community effort to clean up a collective 64 miles along the Poudre River corridor.
- Collaborated with industry partners to open Colorado's first biodiesel pump and to promote residential solar co-ops.
- Educated nearly 100 business and community leaders through the Sustainability Leadership Program since it launched in 2017.
- Engaged 50 high school students in the inaugural Youth Climate Action event in 2022.

**77 percent of people want to learn how to live more sustainably. - Forbes**

# About the Youth Climate Action Event

## Making an Impact

Climate change is a great example of how human behavior can dramatically impact our natural world, and have serious consequences to our social, physical, and economic health.

By providing climate education with a strong civic engagement component, our youth will have the skills to enter a growing green workforce and the know-how to advocate for policies and practices that will keep them healthy, safe, and prosperous.

---

## Youth Climate Action 2023

*With your support, the Sustainable Living Association will be able to provide valuable training for 75 Fort Collins students ages 15-25 at our 2nd annual Youth Climate Action event on September 23rd.*

---

## Program Outcomes

Supporting climate literacy for our youth and teaching them how to work with local government in a meaningful way.

Every participant will develop an *Action Plan* to guide their efforts at home, in school, and in the community.

## Program Highlights

**Act on It** – giving back by participating in community service projects

---

**Talk About It** – Engaging with local elected officials on the issue of climate change.

---

**Learn About It** – Featuring career opportunities in the environmental and sustainability fields.

---

Elevating the voices of our youth.

## Opportunity

SLA is seeking sustainably-minded partners to sponsor the 2023 Youth Climate Action event, a break out event of the Impact Series which unites everyday citizens with resources to promote environmental justice and take climate action at the community level.

**92%**

**of consumers say they're more likely to trust brands that are environmentally or socially conscious. – Forbes**
